

INTERNATIONAL MACHINISTS OF AMERICA TAKE STEPS TO STOP MAKING OF WARSHIPS AND GUNS

Third Largest Union In American Federation of Labor Moves to End War In Own Way, By Tying Up Skilled Labor In Agreement Not to Produce Weapons

FORMER PASTORS WILL RETURN FOR CHURCH RALLY AT GRACE M. E. NOV. 7

A church rally and homecoming which is to be given Sunday, November 7 and Monday, November 8, is being planned by Grace Methodist Episcopal church.

Bishop William F. Anderson of Cincinnati will be present at the services on Sunday evening and Dr. John S. Secret of Akron and Dr. E. O. Burton of Cleveland, former pastors, will come to Coshocton for the two days. A program of unusual interest is being arranged.

Letters will be sent out to all former members of the church inviting them to enjoy the rally and homecoming.

MRS. MOONEYHAM IS BURIED THURSDAY

Funeral services for Mrs. Priscilla Mooneyham who died at her home in St. Louis, Mo., Monday from heart trouble, were held at the home of her parents Mr. and Mrs. Jacob Croy, 611 south Eighth-st., Thursday afternoon at 2 o'clock with Rev. W. C. Prewitt in charge.

Miss Priscilla Croy was born in Fresno, August 19, 1897. She was united in marriage to Henry Mooneyham May 29, 1918. To this union two children were born. Josephine, the 19 months old daughter survives.

Mrs. Mooneyham was a consistent member of the Church of Christ and was held in the highest esteem by all who knew her.

Mr. and Mrs. Mooneyham moved to St. Louis last May. She became ill and was taken to a hospital where she was confined for 25 days. She died at the hospital.

Besides the parents there are two brothers and two sisters: William Croy of the late home and Robert Croy, who is in the United States Army service in Texas. Mrs. Roy Deeds, north Fifth-st. and Gladys Croy of the late home.

Burial was made at the South Lawn cemetery.

NEWARK TO HAVE MAUSOLEUM SOON

Coshocton councilmen have received a copy of the Newark Advocate, which gives an account of the trip which a number of Newark business men took to Zanesville last Thursday to inspect the mausoleum erected there last year.

The building to be erected at Newark is to be in the shape of a Maltese cross. It will be constructed of solid granite with marble trimmings and will be so located as to make it a striking feature of the cemetery from all directions. The floor is to be of marble tile and the wainscoting of white Vermont marble.

Runaway Victim Is Operated Upon

Dr. J. W. Shaw assisted by Dr. E. M. Wright and Dr. M. T. Moorehead performed an operation upon Mrs. Howard Pope of Fresno for the removal of pieces of bone in the right limb at her home in Fresno Thursday. Mrs. Pope, some time ago, had both legs broken in a run-away accident. She was dismissed from the City hospital about two weeks ago.

Leave Hospital

Mrs. Harvey Schlarb and her son, Curtis of Chillicothe, who underwent tonsilectomies at the City hospital, were dismissed Thursday.

G. W. Gray, Killbuck, who was injured about the body when he fell under the wheels of a motor truck at the fair grounds Thursday of the fair, has fully recovered and was dismissed from the City hospital Thursday.

Is Unimproved

Mrs. William Ramsey of Tunnel Hill who has been ill for the past two weeks, was reported to be unimproved Thursday.

WASHINGTON, Oct. 14.—Workers in the arsenal and navy yards are preparing to make what is declared to be the first practical move to end war. The International Machinists Association, one of the most powerful labor organizations in the United States, with a membership of 350,000 and control over all the organized machinists employed in the manufacture of munitions and naval vessels will take initial steps within a month to call a conference of metal workers of the world for concerted action on a program to bring about the world's disarmament.

This announcement coming today from William H. Johnston, head of the organization, produced a sensation in official labor circles. The move, it was pointed out, is the most radical departure from the policies of organized labor in America taken in years and assumes political independence because it comes from the third largest union in the American Federation of Labor.

Next to the miners, it is regarded as the most powerful body affiliated with the federation. Also its constituents, in effect, a repudiation of Samuel Gompers' stand on European labor. In making his announcement Johnston said:

"The question of future wars rests in the hands of the skilled mechanics and the other metal workers of the world. They are the men who make the death dealing devices of war. If they should cease making these devices, war would cease."

"To stop the transportation of munitions in opposition to war is futile so long as munitions continue to be made."

"Modern wars are fought with machinery which is created and fashioned by the hands of machinists and their related craftsmen in all countries, who in light of recent events must bear the responsibility for future wars."

"We believe that the world's peace and safety rests in skilled hands of the world's artisans who fashion steel and iron into armaments and munitions of war."

"We believe this power, wisely used, will do more to abolish forever the menace of war than the efforts of all the statesmen and diplomats in the world."

Johnston said his organization will request the International Federation of Trade Unions to arrange the conference if it proposes.

Samuel Gompers in his recent statement, repudiating European labor, announced that the American Federation would sever connection with this International Federation on account of its bolshevist tendencies.

"Mr. Gompers' statement on relations with European labor is not the position of the International Association of Machinists, nor is it the position of the American Federation of Labor. It is Gompers' position only, and he has always been reactionary."

At its recent convention in Rochester, N. Y., the International Association of Machinists declared for the recognition of the soviet government of Russia.

MOTHERS' PENSIONS ARE STARTED HERE

Payment of mothers' pensions was started this week thru the local probate court, a sufficient fund having accumulated to take care of widows with children. Thus far there are five who will receive the benefit of the mothers' pension law.

Those receiving aid must establish the fact that they are worthy of assistance and their homes will be visited by the probation officer to see that the children are being properly cared for. The maximum amount is \$15 per month for one child and \$5 per month for each other child.

DR. CURRY GETS A GREAT SPEEDER

Dr. G. P. Curry has closed a deal whereby he has come into possession of Premier Witte, a four-year-old with a record of 2:10 1/4, and a son of Peter The Great, 2:07 1/4, who bears the reputation of being the greatest sire living or dead. Dr. Curry expects to use Premier as a stock horse this fall and spring and later he will be staked thru the Lake Erie Circuit.

HERE'S AVERAGE COST OF HOUSE IN RUBBER CITY

AKRON, Oct. 14.—The average cost of a story and half house in Akron is \$5,454.93 according to figures announced by the Akron Builders' Exchange today. The organization constructed a building to ascertain the exact cost. The cost is divided: Lumber and mill work \$1,710; drayage and incidentals \$712; gutters and tin-work \$40; hardware \$82; mason work \$534; grading and excavation \$115; electrical wiring and fixtures \$113; carpenter work \$600; plumbing \$590; furnace \$290; plastering \$441; painting \$215.

MISS MORIARTY CLAIMS DONAHEY'S NOT SO VIRTUOUS

Cleveland Woman Defends Davis In Speech at the Theater Here Wednesday Night Before Big Crowd

Republicans staged a double bill before a packed house at the Sixth Street theatre Wednesday night and, in the language of the theatrical world, it "went over big." Miss Rose Moriarty, Cleveland, and J. Forest Witten, Toledo, played the stellar roles as "understudies" to Frank B. Willis, who was unable to appear here owing to the critical illness of his father. About an equal division of men and women in the audience, which filled the theatre from pit to dome, demonstrated the political amalgamation of the sexes brot about by the suffrage amendment. The amalgamation of the men and women's glee clubs on the stage also showed that hereafter the male and female is to work hand in hand in governmental affairs.

T. L. Montgomery, who presided at the meeting, expressed deepest regret over the fact that former Governor Willis had been summoned to the bedside of his father, stricken with apoplexy. Miss Mary McClure, leader of the women's Republican organization of Coshocton-co, introduced Miss Moriarty, who quickly won the admiration and applause of the big audience. She makes no attempts at oratorical flights but in a clear, well-modulated voice she proved to be a "spell-binder" of the first water and set forth the Republican issues of this important campaign in a clear-cut, humorous and entertaining manner. Miss Moriarty, who claims Elyria as her home town, has long taken a leading part in public affairs and has been actively connected with the suffrage and temperance movements.

Miss Moriarty exhorted the women to exercise their right of franchise by affiliating with the party which comes nearest to their ideals and become a working, breathing part of it every week in the year, pointing out that political parties are essential in a Republican form of government. She said the Wilson administration shows the evil effects of one-man government.

She said that an attempt has been made to disparage the candidacy of Harry L. Davis and to hold Vic Donahey up as a paragon of virtue. She said she had personally investigated Donahey's record and that it is by no means perfect. She said that in the constitutional convention of 1912 Donahey never raised his voice in behalf of the temperance cause and that when he did vote on a measure which bore directly upon the temperance issue he voted "wet." Then, she declared, he had the supreme audacity to welcome the women of this state into the rights of citizenship, after the suffrage amendment was put into effect. She said she was one of the representatives present in behalf of suffrage when this measure was up before the Ohio legislature and that she was almost constantly in attendance at the conferences. She said that five times Donahey had a chance to bat on this measure and he "fanned" every time. She declared that the reason the Scripps-McRae papers are supporting the Donahey-Cox-Wilson policies is because the young Scripps "millionaire" were enabled to evade the draft "while your boys were on the slaughter fields of Europe." She said that if you have to read a Scripps-McRae paper to beat for keeping a millionaire's son out of war. She said it is curious that the Cleveland papers which assailed Davis just before election did not point out long ago to the people of Cleveland some of the things which they are now claiming about his administration. She gave as the reason for the Plain Dealer's support of Vic Donahey that his brother, Hal Donahey, is a high-salaried cartoonist on the Plain Dealer and naturally influences the paper to work for brother Vic, whom she styled as "the hot-air artist from Tuscarawas-co."

She said the idea of holding him up as a model is ridiculous. She did not dwell upon Davis' record but said his candidacy is worthy of the support of every Republican in the state. She cited the various members of Donahey's family who have been on the state payroll.

CRIPPLED LAD TO RECEIVE TREATMENT THRU ROTARY CLUB

Bernard Paine, who has a crippled leg as the result of infantile paralysis, was taken by Rev. John I. Wean Thursday morning to Cleveland where he will be given treatment at St. Luke's hospital. The lad was sent under the auspices of the Coshocton Rotary Club.

CUBAN EXECUTIVE ASKS UNCLE SAM TO MOVE SUGAR

WASHINGTON, Oct. 14.—President Menocal of Cuba has made informal suggestions to the United States that this government, thru financial and sugar interests use its efforts in aiding Cuba's present financial difficulties and in moving the sugar crop. It was announced at the state department today.

The Cuban president has suggested that one method of aiding Cuba would be by the American refiners fixing a price on the Cuban sugar crop. It is understood that the suggestion has been made that this price be fixed at 10 cents a pound.

The state department has taken no action on the suggestions of the President.

LENINE WATCHES CAMPAIGN IN U. S. MUCH INTERESTED

Says America Should Trade With Soviet Russia For Best Interests of Both—Foresees Struggle Between U. S. and Japan For Control of Pacific

The International News Service has secured the first interview ever given by Nicolai Lenine head of the Russian Soviet government to any American Newspaper or Press Association. Lenine showed in his conversation that he is keeping keen watch on all American affairs, especially the political campaign.

The following were the chief points made by Lenine in his talk.

- 1—After three years of blockade and war Soviet Russia is stronger than ever.
- 2—Russia wants to trade with America.
- 3—American capitalists foresee a struggle with Japan for domination of the Pacific.
- 4—A deep interest displayed in the Farmer-Labor party in the United States and Lenine expressed curiosity as to whether the members were called Bolsheviks.
- 5—Leaders of the Republican party realize that America's isolation is a thing of the past.
- 6—Soviet Russia always carries out her promises.
- 7—Soviet Russia is the only solvent country in Europe.

MOSCOW, by wireless to Berlin, Oct. 13.—(Night).—Nicolai Lenine today gave an exclusive interview to the International News Service. He received the correspondent in a large plain office in the former law courts building, now the headquarters of the Council of People's Commissars.

There was an absence of all guards and all ceremony. Lenine was dressed like a conventional man of affairs. He was extremely cordial and his conversation was animated. He was curious, asking innumerable shrewd questions, which showed an extraordinary knowledge of American politics. On Lenine's desk was a copy of an American newspaper describing the Farmer-Labor party convention.

"This is a most important and interesting development," said Lenine glancing at the newspaper. "I suppose the reactionaries call these fellows Bolsheviks."

Lenine laughed and added "What are these Forty Eighters? Aren't they American Fabians?"

Lenine then turned to the American policy towards Russia.

"I told Americans, 'Col Robins among them, in 1918 that it was to the interest of the United States to be friendly with Soviet Russia,'" he said.

"As long ago as that I pointed out the desirability of commercial relations both from our viewpoint and the viewpoint of Americans. We offered concessions to American capital, American business men now arriving in Moscow agree with us."

"Outside of all political questions the simple fact remains that America needs our raw materials and we need American goods. American capitalists know perfectly well what they want. They see coming a struggle with the Japanese for domination of the Pacific. They realize that America must soon challenge England for supremacy in the world's markets."

"Whether they like us or not, Soviet Russia is a great power."

"After three years of blockade and countless revolutions, military intervention and the Polish war, Soviet Russia is stronger than ever."

"America will gain nothing for herself by President Wilson's virtuous refusal to deal with us, because our government does not suit his tastes."

"Leaders of the Republican party seem to realize that the period of isolation from European affairs is past. It is evident that the country cannot play such a part without utilizing the immense unexploited reservoir of raw materials offered by Soviet Russia. And, in turn, Soviet Russia can purchase."

ALLEGED WAR TIME RELATIONS WITH IRELAND ARE CAREFULLY GUARDED BY GERMAN GOV'T

Charges of Premier Lloyd George Receive Ambiguous Denials and Evasive Replies In Berlin—Correspondent Is Directed to London For Information On "a Political Matter"

FINE WEATHER IS NEARING AN END

WASHINGTON, Oct. 14.—The weather bureau has issued a special bulletin announcing that indications are that the especially fine weather in the middle west and western states is near an end.

A disturbance is proceeding along the Alaskan coast and will bring rain and gales in northern Pacific states, moving across the middle west bringing rainy weather and probably local snows in the northwest.

The temperature following the disturbance will be the lowest for the season, the bulletin declared.

HAMILTON LUKE IN AUTO STRUCK BY A TRAIN AT FRESNO

Hamilton Luke, 60, who resides a few miles west of Fresno sustained serious injuries when Wheeling passenger train No. 8 bound for Coshocton crashed into an automobile which he was driving at the Fresno crossing Thursday noon. It was said that the automobile was knocked clear of the track when the engine struck it.

Mr. Luke sustained a broken left leg and a bruised nose. He was taken aboard the train and brot to Coshocton and taken in Hamilton's ambulance to the City hospital where his injuries were treated by Dr. Lister Pomerehne.

The injured man is a retired carpenter who lives on a farm in White Eyes-tp. He is partially deaf, which accounts for his failure to hear the train.

Several years ago he sustained serious injuries in a fall from a barn roof.

STRIKE MAJORITY IS OVERWHELMING AMONG WELSHMEN

LONDON, Oct. 14.—The second referendum ballot of the British coal miners on the question of a general strike has resulted in an overwhelming majority in favor of a strike and again the proposed settlement with the colliery owners, according to the Exchange Telegraph agency today the result is in favor of the settlement, 155,000, in opposition to the settlement, 708,000.

These returns were incomplete. A delegation from the Federation of Miners was expected to confer with Premier Lloyd George this afternoon.

WOMEN PICKET WHITE HOUSE

WASHINGTON, Oct. 14.—The white house has again been picketed. Led by Mrs. Gertrude Corless, of New York, members of the American Women Pickets for the Enforcement of America's War Aims, took up a position in front of the white house with banners condemning "The Masacre of Irish By British" and protesting against the failure of the American Red Cross to render aid to the suffering in Ireland.

Nine small children and three women comprised the pickets who were unmolested by the police.

After a short time of pacing to and fro, the pickets left.

Mrs. Corless announced that this afternoon women will picket the headquarters of the Red Cross. A committee will also call on officials of the Red Cross demanding something in the way of relief work shall be done by the Red Cross for the destitute of Ireland.

Dies At Age 110

COLUMBUS, Oct. 14.—Said to have been born 110 years ago, the body of Zellek Friedman, in a plain pine coffin, was buried in the Jewish cemetery, here.

Coming to Columbus 37 years ago, he lived the life of a recluse. Friedman informed neighbors that he was born in Russia in 1810. Burial was preceded by brief service, in compliance with Friedman's request.

BERLIN, Oct. 14.—The German government is carefully guarding the secret of her war time relations with Ireland, if they were any.

Following the sensational charge made by Premier Lloyd George last Saturday that Ireland gave assistance to the German submarine campaign, it is officially stated that it is not known whether or not there were submarine bases on the Irish coast or whether the Irish were assisted to organize an anti-English army.

It was expected that Germany would refute the British Premier's charge by pointing out the obvious technical difficulties which would make Irish aid impracticable or impossible.

Instead the correspondent encountered a maze of mystery, evasion and ambiguous denials. Reticence in some quarters indicated that a very tender spot had been touched. An army general staff officer referred the correspondent to the navy as the competent authority on all Irish questions.

Those officers discussed Irish matters informally but when asked for a statement for publication, they replied it was forbidden to the army and navy officers to make such statements.

This regulation was introduced after the Von Kapp rising because officers of the army and navy press section revealed facts which embarrassed Wilhelmstrasse and resulted in the foreign office removing three high staff officers. This proved an effective lesson which tied the tongues of other officers.

The foreign office refused permission to the admiralty to make a statement. After a day's delay the correspondent was referred to Consul General Grunow, who for 13 years was the German consul at St. Paul Minnesota. After the United States entered the war Herr Grunow went to Mexico.

Herr Grunow received the correspondent in his office on the third floor at No. 75 Wilhelmstrasse which houses Germany's secret political chancellery. Replying to questions as to whether the correspondent should be referred to the chief of the United States political section instead of the chief of the Irish section Herr Grunow replied:

"If the information desired is relating to Lloyd George's accusations of Irish German relations, the proper place for the inquiry is in London. Mr. Lloyd George probably would not make a statement unless he has the facts to back it up."

The correspondent answered: "I am not asking Germany as a defendant, but as a witness. Why isn't the navy permitted to discuss the Irish subject?"

"Because it is purely a political matter," said Herr Grunow. "The disposition of submarines and the establishment of bases were strictly technical naval matters," responded the correspondent.

"Did you have a different policy for the Irish coast than that for the English coast?"

"The extent of the sub war was a political question," he replied. "There is no material to answer your questions about the Irish a-s-i-a-n-t-o German Subs."

The correspondent replied "There is enough material to keep a very large navy historic section occupied. Why don't you permit them to answer my questions?"

Herr Grunow answered "Their work is unfinished."

"Do you mean the time is now ripe to reveal these documents?"

"I very much doubt if some facts will ever be published," replied the official. "Single facts can be misconstrued. I telephoned to the admiralty and they said they had no material. There have been so many changes among the officers since the revolution, that whoever knew about these matters is gone."

"How about Roger Casement going to Ireland in a German submarine?" asked the correspondent.

All I know about that is what appeared in the newspapers. It is not even proved that he went in a submarine."

"Surely the navy knows if it detached a sub to take Casement," interjected the correspondent.

"Under the present conditions, I doubt if that is possible today. The log of the submarine which sank the Lusitania indicates there was no Irish base at that time," said Grunow. "Officials refused to reveal the archives of the war department or the historical section."

WHISKEY RING AT CHICAGO OPERATED ON GIANT SCALE

CHICAGO, ILL., Oct. 13.—Federal authorities today are following trails of evidence that they believe will lead them to the leaders of a gigantic ring that already has consummated, it is alleged, deals in contraband booze, aggregating approximately \$3,000,000. Men high in public life are said to be involved, reports current today declaring that two members of the United States congress are implicated. It is alleged that bribes aggregating more than \$200,000 have been paid public officials in Chicago within the last five weeks.

Persons connected with the internal revenue and prohibition departments are alleged to have received sums ranging from \$5000 to \$50,000.

United States District Attorney Cline declared today that the evidence presented to the grand jury will disclose a scandal that will "shake Chicago."

Existence of the alleged ring was disclosed thru the confession of H. A. Sadler, a former New York stock broker, who is said to have been one of the ring's agents in the disposal of the liquor. Sadler's confession is said to involve John J. McLaughlin, former member of the Illinois legislature, and ten others, among them O. H. Wathen, owner of the "Grand Dad" distillery at Louisville, Ky., and of the Louisville American Association baseball club.

McLaughlin, it is charged was paid a bribe of \$20,000 in a transaction involving \$125,000 worth of contraband liquor.

WASHINGTON, Oct. 13.—The prosecution of the alleged Chicago liquor ring will be placed entirely in the hands of District Prohibition Commissioner Dalrymple at that place. Federal Commissioner Kramer announced today.

Pleads Not Guilty To Neighbor's Charge

Roscoe Snell, who resides about six miles west of Roscoe filed an affidavit in Justice E. G. Abbott's court Wednesday against Alphas Vansickie who resides near the Snell home, alleging that the latter unlawfully drove his horse and wagon across a patch of the plaintiff's corn damaging it to the amount of \$5.

Vansickie pleaded not guilty to the charge and asked to be bound over to common pleas court. He gave bond and was released.

Constable Burt Almack arrested Vansickie Wednesday morning.

Scotch Prescription For Catarrh Proves Successful As Hay Fever Preventive

When Scotch people catch cold or want to speedily rid themselves of vile catarrh, they have a wonderful liquid which they sprinkle on a handkerchief, hold it to the nostrils and breathe deeply into the lungs.

"This liquid which is called Haealanol and is the formula of a prominent physician, has proved very successful as a Hay Fever preventive," explained an international traveler in New York early this spring, "but it must be used before the expected attack."

An investigation proved that the better class of pharmacists in America have been selling Haealanol for some time.

Haealanol produces a highly antiseptic air, pungent, penetrating, yet pleasant to the senses, that, passing over the tender, sore membrane of the air passages, destroys all harmful germs at the same time, heals and soothes the abnormal tissues.

An interesting folder which comes with each vial tells of various clever ways of using Haealanol to prevent Hay Fever and Colds and do away with Catarrh, says Wimmer Arnold Co., who sell lots of both sizes—50 cents and \$1.25. The Haealanol Company, Inc., Rochester, N. Y.

For Beauty's Sake

Remove that film-coat from your teeth

Teeth cannot glisten with a film-coat on them. You who want white teeth must learn how to remove it.

This week your druggist offers—free—a new way of teeth cleaning. Millions now employ it. Leading dentists everywhere advise it. Go make that test. One week's results will be a revelation.

Film—the great enemy

But this is more than a beauty question. Film ruins millions of teeth. Most tooth troubles are now traced to it.

Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. The ordinary tooth paste cannot end it, so the tooth brush has left much of it intact.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. All these troubles have been constantly increasing, because brushing failed to end that film.

Now a new dental era

Dental science, after years of research, has found ways to combat film day by day. The methods have been proved efficient by many careful tests. High authorities endorse them. And millions of people now employ them, largely by dental advice.

These methods are combined in a tooth paste called Pepsodent. Together they combat the film as nothing else has done. And they are fast bringing, the world over, a new era in teeth cleaning.

That is the tooth paste you are urged to test. See the instant results—watch the effects for ten days. Then decide for yourself between the old ways and the new.

The unique effects

One ingredient of Pepsodent is pepsin. Another multiplies the starch digestant in the saliva to digest starch deposits that cling. The alkalinity of the saliva is multiplied also. That to neutralize the acids which cause tooth decay.

Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere.

The Pepsodent effects come with every application. Day by day they fight the teeth's great enemies. And teeth are protected as they never were before.

See and feel it act

Present this coupon for the 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

The results are quick and apparent. A little book tells the reasons for them. For your own sake learn how much they mean.

Game At Tyndal May Decide Race

The Industrial League pennant will either remain with the Glass house after the Saturday afternoon game or be reclaimed providing the Pottery defeats Tyndal at Tyndal. If Tyndal is loser to the Pope-Gossers the pennant will be given to the Glass factory and they will receive the honors of the season. But if the Pottery

Home-made Remedy Stops Coughs Quickly

The best cough medicine you ever used—quickly made. Saves about \$2.

You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Tastes pleasant, too—children like it—and it is pure and good.

Pour 2 1/2 ounces of Pinex in a pint bottle; then fill it up with plain granulated sugar syrup. Or use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. Thus you make a full pint—a family supply—but costing no more than a small bottle of ready-made cough syrup.

And as a cough medicine, there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly heals the inflamed membranes that line the throat and air passages, stops the annoying, throat tickle, loosens the phlegm, and soon your cough stops entirely. Splendid for bronchitis, croup, hoarseness and bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract, famous for healing the membranes. To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

To the Seven Million Housewives Who Are Now Using Mazola

MAZOLA can be used for more different purposes and at less cost than almost any other food.

It contains no water, as do butter and lard—remains always sweet and palatable, and does not absorb odors or flavors. So the same lot of Mazola can be used over and over again—a wonderful saving in any household. If you want to use it for shortening—even after frying fish or onions—you have only to strain it. It never smokes up your kitchen.

Mazola makes lighter and better cake and tastier fried foods than animal fats. And so light and wholesome they agree

with even the most delicate children.

Thousands of families, leading hotels, clubs and railroad dining cars use Mazola in preference to olive oil for salads. It costs much less than half as much, and is pure, rich and wholesome.

Mrs. Hicks Relieved By Four Eatonics

"I have taken four Eatonics tablets and they relieved me of sour stomach. I recommend it to everybody," says Mrs. G. P. Hicks.

If stomach is not digesting your food; if you have sourness, bloating, food repeating, indigestion or acid stomach, Eatonics will remove the cause by taking up and carrying out the acidity and gases, bringing quick relief and healthy digestion. Why suffer stomach trouble? Why not keep your digestion normal and enjoy good health? An Eatonics taken after each meal will prevent discomfort and pain.

Make the test today and see how quickly this wonderful remedy acts. It comes in handy tablet form. Carry it with you. A big box costs only a trifle with your druggist's guarantee.

Strive To Have Healthy Skin

Next time you are in a gathering of women note the different conditions apparent in complexion. You will see some filled with blackheads, some dry and rough, some smooth and creamy, some smeared with rouge, some streaked with heavy metallic powders and once in a while you will see one that is a demonstration of intelligence from every point of view. The color is rosy, the skin is clear and smooth, the pores are small and open, the powder does not show on the firm vigorous skin.

Every woman can have a good complexion if she will only use a little Bio-feron. If you would acquire real beauty, the beauty of perfect health, you must replenish your worn-out nerves with leithin. Nature's own nerve restorer, and put into your blood the invigorating iron which Nature intended it to have for health. In most of the modern foods these and other vitalizing elements have been largely eliminated. Yet to be healthy and beautiful the system must have them. They are found in Bio-feron, not only in proper proportions to restore weakened vitality but in such form as the system can best assimilate them.

A treatment of leithin and iron peptonate as combined in Bio-feron increases the appetite, aids nutrition and invigorates the patient.

And Bio-feron in its pellet form is easy and palatable to take—no liquid

unpleasant taste.

There is no secret or mystery about Bio-feron. Doctors prescribe it regularly because they know exactly what it contains as well as what it will do and they know they could not formulate a better up-building tonic.

The action of Bio-feron on the system is so beneficial, we are sure of its giving you positive health and vigor. Providing, of course, there is no serious, chronic ailment such as cancer, tuberculosis, etc., that we only sell it on the condition that you agree to return the empty package and accept a refund of your money unless you are entirely satisfied.

There is no use waiting for health and beauty. It is better to do things today than tomorrow. Go to your physician today—right now—he will advise Bio-feron. Then start taking it at once as he advises or as directions on the package call for. The guarantee protects your money. Invaluable booklet may be had for the asking.

Canon Barnes And The Fall Of Man

CANON E. W. BARNES of Westminster Abbey has unloosed the dogs of theological controversy by stating that Christian thinkers no longer accept the story of the Garden of Eden and the fall of man as historical fact, but are turning quietly to a belief in evolution. His theory is that as men test out the Old Testament by means of science and reason they are inclined to look on its teachings as allegorical—as suggestive merely of the fundamental drama of mankind.

Obviously he who finds his truth in Darwin will not be able to read Genesis literally, and he who reads Genesis literally will be unable to grant Darwin an inch. Grant the scientific mind the right to criticize even the most glaring of improbabilities and it will calmly proceed to make myth out of an article of faith. If the fall of man is unlikely, what is to be done with Jonah? If the history of Jonah is conceded to be a parable, what happens to the meeting of Moses with Jehovah on Mount Sinai? And if that meeting did not actually take place, are the Ten Commandments no longer to be considered as revelations? Begin on this downward course, and there is nowhere to stop. For the Old Testament and the New are dependent upon absolute faith for their invulnerability. Any religion that takes cognizance of doubt for any other purpose than to condemn it has opened the floodgates of tolerance and independence.

Yet we cannot escape the truth of Canon Barnes's original contention—that thinking Christians in many cases decide for themselves what they will accept and what they will reject. It cannot be denied that the Protestant and the Catholic churches have stressed certain doctrines at the expense of others. There are in the Old Testament explicit directions and rules of conduct which have been set aside as incompatible with the civilization in which we live—as unnecessary in some cases, as superseded in others.

Even in the New Testament there are teachings which the centuries have silently set aside, and which we regard as fitting for the age in which they were uttered—not for us. Christ's words about the use of violence and the desirability of wealth are yearly and daily ignored because we have found no way to put his ideals into practice.

Of a certainty the greatest of evils in the religious world is hypocrisy, and if it is true that there are men in the English church who can no longer put credence in the tale of the Garden, the serpent, and the apple of knowledge, it is their duty to say so. Faith is sometimes a virtue, honesty nearly always. The canon is quite right in holding that a faith that fears the progress of knowledge anticipates its own dissolution.

It is dangerous for Christianity to admit that science has made inroads upon ancestral beliefs, but it would be even more dangerous for any church or sect to insist on formal orthodoxy while winking at informal reservations.

New York Day-By-Day

By O. O. McIntyre

NEW YORK, Oct. 14.—In this era of shrewd buying, stately limousines stand brazenly at the curb of the five and ten cent store on Fifth Avenue. Indeed it is becoming a shopping con-

ter—so much so that the blind and armless beggar who used to stand three blocks away now stands in its shadows.

The push cart section on Hester Street is now enjoying uptown patronage. There are real bargains to be found in this colorful section. Yid dish merchants have heretofore depended on East Side buyers and the bargaining is sharp.

But the hordes from uptown have learned that it is considered bad luck by the push cart men not to make a sale so they are bargaining with all the fervor of the natives.

The push cart merchants sell everything from pins to phonographs. Most of them are old men whose sons belong to another day—the day of paunchy hose and silken shirts. The fathers are daily visitors to the Tabernacle, strictly orthodox and at night

gather on the stoops of the tenement section silent and brooding.

Hester street is filled with young full bodied, red cheeked girls. They obey their parents better than the sons and assist in the sales. In many instances they display the merchant dize in a fetching manner—for there are push-carts piled with hats, shawls, ribbons and blouses.

Another phase of the craze for bargaining is echoed in the high priced hotels. The guests may stay there but they eat at the little cafeterias that dot the neighborhood. Down in the Grand Central hotel district scores of these eateries have bloomed over night. Their patronage comes from the big hotels.

I had dinner the other night at the next table to Charlie Chaplin, the film star. Charlie takes big bites just as I do and tips his soup plate in the same fashion. He looks little as you would expect him to in real life. Of course the absence of the mustache may account for that. But his face is longer and more youthful than I expected. He was in correct dinner dress and did not display any self consciousness altho waiters had spread the news that it was none other than he and all eyes were upon him from soup to nuts. He might well be taken for a young man of 24 or 25. He has an English drawl and says "extradineery" "really" and "My Word". He smoked several cigarettes during his meal and the tip that he left—I couldn't help but see it—was not remarkably big for the character of the place. Going out I think many people expected him to trip, smack his hand kerplunk in some lady's soup and then whirl around and upset a huge vase at the doorway.

The gilded after theatre plagues look so pitiful after the play these days. No one goes out for supper. Instead they ride to apartments where Meadows has a fine frost on the cocktail shaker and a goodly chill upon the wine. The soda water places get a good patronage but the stately places where one crossed itching palms with \$10 bills to get a good table are mostly in their lifelessness. Quite a few are considering closing after the dinner hour—so dull is the business. It is said that an old time New Yorker sent a wire to Cap Churchill the other day—as per his usual custom—asking for a good table on New Year's Eve. The poor fellow is prospecting for gold in Alaska and didn't come to the states last year. Cap is arranging to take a fleet of doctors with him to Seattle to break the news when the ship arrives from the north.

WALT MASON YEARS AND WISDOM

I've lived about a hundred years, and as I lived I looked around, and in the course of time my dears, some chunks of wisdom I have found. I've found that kindness always pays; it smooths the path we have to tread, and takes much anguish from our days and hushes us when we go to bed. Speak kindly of the man next door; he'll hear the unkind things you've said, and they may make his spirit sore so he will come and punch your head. Speak kindly of the goings, clerk, who stung you when you bought some rice, he's weaved by his grinding work, and so got balled up on the price. Speak kindly of all men who pass, they need kind words to make them glad, they're trying hard to cut their grass and bands are tired and hearts are sad. My life has been a joyride great because I hate no man on earth and in the cheapest kind of skate I try to find some signs of worth. I have about a million friends who smile upon me when we meet and when my little journey ends my funeral will be a treat. The boys will boost me on that day not for the silly rhyme, I grind not for my wealth or fragrant bay, but for the fact that I was kind.

There's always room at the top
"Spurs are There"

All you men folks who have tired of cigarettes that lack snap and go—cigarettes that are like flat tires on the road to smoke-enjoyment—listen to this:—

—AWAY out in the Orient grow rich aromatic tobaccos. A long buying arm reached over and brought them to the U.S.A.—then combined them with our home-grown full-bodied tobaccos. Out of the blend was born Spur Cigarettes.

That rare, rich old-time tobacco taste and aroma is winning right and left. Besides, Spur Cigarettes have imported paper, rolled without paste. The crimped seam makes Spurs burn slower, draw easier, and taste better.

And that smart brown and silver package is three-fold to keep Spurs right. You just can't stay on the fence once you have "met up" with Spur's good tobacco taste.

SUCCESS OF A MEDICINE

All things succeed which fill a real need; that a doctor is kept busy day and night proves his ability and skill; that Lydia E. Pinkham's Vegetable Compound is sold in enormous quantities in almost every city, town and hamlet in America and in foreign countries as well proves its merit, and women are found everywhere who tell of health restored by its use.

A luncheon of especially pretty appointments given Tuesday by Mrs. Frank Foster at her home near West Lafayette marked the opening of the Home Study club year for 1920-1921. An abundance of autumn leaves decorated the house attractively. Covers were laid for: Mrs. Ada Gault, Mrs. William Thresh, Mrs. Alma Shaw, Mrs. A. B. Markley, Mrs. E. C. Rinner,

Mrs. William Wendt, Mrs. Emmett Frye, Mrs. Lester Page, Mrs. George Irwin, Mrs. Anna Dokkenwadel, Miss Alice Judd, all members of the club. Miss Eva McNary and guest, Miss Anita Fisher of New Brunswick, N. J., Miss Anna Rogers and Mrs. M. T. Moorehead of West Lafayette, who were guests of the club, and the hostess.

The regular program followed the luncheon. Roll call was answered by current events and two splendid papers were read. "Back to the Farm"

was the title of the paper given by Mrs. George Irwin, while a review of the story, "The Sagebrush Farmer's Wife" which was prepared by Mrs. George Stegriat was read by Mrs. Gault. A pleasing feature of the program for the afternoon was the vocal solo contributed by Mrs. F. A. Markley. Three new members were added to the club membership.

Mrs. William Thresh and Miss Alice Judd were elected to represent the club at the annual meeting of the Ohio Federation of Women's clubs

which is to be held in Columbus October 18 to 22, inclusive. Mrs. Alma Shaw and Mrs. Anna Dokkenwadel were elected alternates. Mrs. Charles Magnus, north Eighth-st. will be hostess at the next meeting, Monday, October 25.

RHEUMATISM LEAVES YOU FOR EVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenru, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony were intense and pitiful and where the patient was helpless.

Mr. James H. Allen, the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of any one's money unless Allenru decisively conquers this worst of all diseases, and he has instructed the Wimmer-Arnold Company to guarantee it in every instance.

BIG ULCER ALL HEALED

"Now I Can Walk," Says Mrs. Southcott of Medina.

"Here is another letter that makes me happy," says Peterson, of Buffalo. "One that I would rather have than a thousand dollars."

"Money isn't everything in this world. There is a big hearted, rich man who would give all he has on earth to be able to produce a remedy with such mighty healing power as Peterson's Ointment, to sell at all druggists for 35 cents a box."

Read this letter, written February 14, 1918, by Mrs. Albert Southcott, of Medina, N. Y. It seems like a miracle but it is true, every word of it. I know it because I got similar letters almost every day.

Is it any wonder I am happy? Peterson Ointment Co., Inc., Buffalo, N. Y.

Dear Sirs—
"I was an untold sufferer from an old running sore and ulcers. I had tried most everything without any relief from pain. A friend told me of your wonderful ointment and the first box took away the pain that had not left me before in years, and after I used just nine dollars worth of the salve I am cured. The ulcer was 3 inches by 6 1/2 inches, is all healed and I can walk. Never, never will I be without Peterson's again."

"You may use this to recommend your ointment if you wish. I cannot say enough to praise it. Yours truly Mrs. Albert Southcott, Medina, N. Y."

Y. W. C. A. NEWS
By E. E. FARQUHAR

Ona Northup and Hazel McEvoy were hostesses at a fudge party given Wednesday evening at headquarters. Guests at the affair were: Miss Murray, Miss Foresman, Florence Eckert, of Dover, Ruth Parrish, Nello Parrish, Marie Schuch, Beate Ott, Edna Froets, Emma Eckert, Blanche Northup, Esther Haight, Hazel Reed, Nello Cheney and Hazel Gauner.

The girls who enrolled in the gymnasium class are reminded that the first meeting will be held this evening at 7 o'clock at the Central building.

The second of the "Sunday afternoon services at home" promises to be unusually interesting. A Chinese playlet is to be presented by a group of Y. W. C. A. girls. The services are held at headquarters Sunday after-

noon during the hour of four to five.

Have YOU enrolled in a class this fall?

That Coshocton women voters are anxious to learn how to mark the ballot correctly was proved by the unusually large crowd that attended citizenship class Tuesday evening.

The girls of the Many-Ha-Ha club will meet Friday evening. A business session at 7 o'clock which is to be followed by a jolly party of some kind is the program for the evening.

A bulletin, written for social workers and others interested in the foreign-born people of the U. S., giving in condensed form information on all things affecting the foreign-born, is being published monthly by the division for foreign-born women of the national board of the Y. W. C. A. in New York city. The bulletin, started during the war, was primarily planned for

EVERY WOMAN CAN HAVE A FAIR COMPLEXION

If your skin is pale and colorless; if you have Pimples, Blisters, Blackheads, Liver Spots, Yellow or Sallow Skin—then it will pay every woman to go to her nearest druggist and obtain a package of Mother Nature's gentle tonic, the famous Bulgarian Blood Tea. This pure all-herb preparation taken once or twice a week just before bedtime will eliminate the body poisons from the system and cause the blood stream to surge with rich pure blood. Bulgarian Blood Tea regulates the bowels, stimulates the liver, flushes the kidneys, aids digestion and sweetens the stomach. Bulgarian Blood Tea taken steaming hot at bedtime kills Colds, guards against Influenza and Pneumonia. Sold by all druggists and grocery everywhere.

the use of the Y. W. C. A. workers among foreign women and girls but so great has been the demand for it from college professors, ministers, employment managers, librarians, social workers and others that the publication is to be issued on a subscription basis. It is edited by the research worker of the Y. W. C. A. foreign-born department, a woman who has lived in several European countries and has spent many years in social work among the foreign-born people of all nationalities in the U. S.

Rhems, with only fourteen habitable houses left standing, with streets still unlighted and the people living in temporary shanties built inside the partly destroyed walls of buildings, is at its own suggestion raising money to erect a Y. W. C. A. building for

Why Stay Fat?

The answer of most fat people is that exercise and dieting is too hard, too troublesome and too dangerous a method to force the weight down. However, in Marmola Prescription Tablets, all these difficulties are overcome. They are absolutely harmless, entail no dieting or violent exercise, and have the added advantage of cheapness. One little tablet after each meal and at bedtime—as pleasant as candy—will reduce your weight two, three or four pounds a week, and leave no bad results such as wrinkles or flabby skin. A good size box is sold by druggists at the reasonable price of one dollar, or if preferable they may be obtained by sending the amount to the Marmola Co., 34 Gerard Building, Detroit, Mich. They will reach you by mail, prepaid, in plain, sealed cover. Now that you know this you have no excuse for being too fat, but can reduce two, three or four pounds a week without fear of bad after-effects.

dows or doors and roofless in some parts. It was the only social center in the city, however, and has met with such enthusiasm from the older people in the community as well as the girls that the city decided to supply a permanent home for the "Foyer."

"GETS-IT" WONDER CORN PEELER

Just as Good for Calluses. Money Back If It Fails.

Don't be bossed through life by a pesky corn or callus. Don't wear shoes too large for you because a corn says you must. Get rid of the darned thing.

"Peel the Whole Corn Right Off and be Rid of It."

It's a revelation to corn sufferers, the wonderful way that "Gets-It" banishes corns. Spend two minutes—that's all—to apply 2 or 3 drops to any corn or callus. The pain will stop instantly. In a few seconds the corn dries right up. Soon it has loosened so you can peel it off in one complete piece, root and all.

"Gets-It" is sold by all druggists; money back on request, costs but a trifle. Mfg. by E. Lawrence & Co., Chicago.

Sold in Coshocton and recommended as the world's best corn remedy by Page & Lorenz.

CARPENTIER WINS CALLED FRAME-UP

JERSEY CITY, Oct. 14.—Rumors that the fight here last night in which Georges Carpentier, French champion, knocked out Battling Levinsky was a "frame-up" were called to the attention of assistant Prosecutor George T. Vickers today.

"I think Carpentier dazed Levinsky in the first round," Vickers said. "He had a punch that would kick over a mule. I saw no indications of a frame-up. I hear that Wall-st was betting that Carpentier would knock Levinsky out in the fourth round, and that may have started the rumors."

NO POLICY CHANGE FOR FARMER'S AID

WASHINGTON, Oct. 14.—The Federal Reserve board will not change its policy to provide extension of credit to the farmers as requested by a conference of farmers here with the National Board of Farmer Organizations according to Lee S. Overman, Senator of North Carolina.

Senator Overman made this statement following a conference with Governor Harding of the Federal Reserve Board. He stated he had been assured by Governor Harding that there

can be no change of policy for the benefit of the farmers.

GLASSES FOR NEAR WORK

Just about every person who lives long enough is one day brought face to face with the need of reading glasses. No matter how perfect the eyes may have been in past years, along about 40 or 45 years of age the average person begins to experience trouble when reading. Then the wise person promptly hunts up an Optometrist, and gets the help that his eyes need. We can accurately determine what lenses you need for reading.

FORTIFY YOURSELF AGAINST THE "FLU"

THURSDAY HEALTH TALK NO. 32
By R. E. Lynch, D.C., Ph.C.

—This is a season of the year when sudden changes in temperature may catch you too lightly clothed. If the body is not in vigorous condition, you are easily made a victim of influenza.

—The body is fortified against colds or influenza when the lungs, the kidneys, the liver and the stomach are getting their full share of nervous energy. The nerve lines are power lines running to all parts of the body. But when some one of the 24 movable joints of the backbone becomes out of alignment, then the nerve exit between spinal joints is narrowed and the nerve is pinched. The transmission of nervous energy is disturbed, some organ is weakened and becomes incapable or dis-eased. Chiropractic adjustments restore spinal alignment, and with the cause removed the disease goes.

RETURNED TO SCHOOL

"Last year I had the 'Flu.' My wife had just had a wonderful experience in getting rid of a goitre that had resisted all other treatment for two years, and so I decided to try chiropractic first. In two weeks I was back in the school room. My condition was such that I feel chiropractic was a life saver."—A. L. Baker, Chiropractic Research Bureau, Statement No. 1233H.
